VIDEO: BOOSTED WITH AI!

This general video gives an overview of all the uses that can be made of AI, some of which are rather unexpected. For a general approach with a humorous tone, this resource can be used in the classroom.

"Want to know how it's possible?"
Watch the video below (1'26")

Synopsis

The main character, *Guillaume*, discovers new and unexpected uses of AI, such as the ability to create a pizza recipe using machine learning. The video then focuses on the place of algorithms and data in many fields, including marketing.
